OPEN CALL ON JOINT COVID-19 RELIEF FUND TO THE CRAFT, DESIGN, VISUAL ARTS AND AUDIO-VISUAL SECTORS

The impact of the Covid-19 pandemic on lives and livelihoods has been both far reaching and devastating beyond what could have been imagined. It is this recognition that prompted the continuation of work towards coming up with various measures and interventions to mitigate this negative impact. It was important for government to respond following pleas from stakeholders and role players in the creative industries to expand on these interventions. Two of those requests came from the National Craft and Design Sector Coordinating Committee and the Cultural and Creative Industries Federation of South Africa (CCIFSA). The Coordinating Committee is a formation of government and non-government role players, chaired by the Department of Small Business Development (DSBD), with the support of the Department of Sport Arts and Culture (DSAC) to drive government support for the craft and design sectors.

The DSAC together with the DSBD contribute an equal amount of money to set up a fund which is worth **twenty two million two hundred and eighty two thousand rand (R 22 282 000.00)** to provide relief to organisations, enterprises and individual practitioners in the craft, design, visual arts and audio-visual sectors. Minister of Sport, Arts and Culture, Mr Nathi Mthethwa in emphasising the importance of government's responsiveness said "The Coronavirus pandemic caught everyone off guard. It has tested our resolve and forced us all to think out the box in order to survive. The hardest hit was the creative sector. We, as a Department are committed to ensuring that artists are supported as we gradually return to normality, albeit, under strict health protocol; and to pick up the pieces as we begin the journey to full economic recovery."

It is against this backdrop that the two departments are jointly announcing further relief to targeted sectors in the cultural and creative industries by opening the process and thus calling for applications from the mentioned sectors.

Crafters are practitioners that are involved in the production of a broad range of utilitarian and decorative items produced using a range of materials, skills and techniques grass-weaving, ceramics, beadwork, wirework, wood, jewellery, paper, fabric painting and printing, quilting, leatherwork, pewter, glasswork, embroidery and mixed media. The craft sector usually overlaps with certain design disciplines but today the announcement is that design as a specific sector will also benefit from this relief. Design includes a wide range of different subsectors such as product design, fashion design, textile design, and jewellery design and so on.

Also included in this relief is the audio-visual sector and covers support to producers, director's, art directors, camera operators, people involved in lighting, runners, sound, costume, hair & Makeup, on-set photographers, post production, and animation. This assistance also includes freelancers (independent contractors). Lastly, the relief also extends to **visual artists** which is also defined as fine arts (including paintings, sculpture, printmaking, ceramics, and drawing) and contemporary art (such as performance art and installations) and photography.

“As the Department of Small Business Development we endeavour to promote and empower all SMME's & Cooperatives regardless of their sector but partnering with the National Department of Sport, Arts and Culture which is the most pertinent institution to support and promote our Artists and Crafters is a natural marriage” explains Minister Khumbudzo Ntshavheni.

This relief fund is open to all these sectors outlined above.

Application forms can be accessed as of today, **2 November 2020** on the Department of Small Business Development's website, which is www.dsbd.gov.za and the Department of Sport, Arts and Culture, on the following departmental websites www.dac.gov.za | www.srsa.gov.za
